Format: In person (not recorded)

Attendees: Matt, Rami

Updates

Matt

- **Done:** Got the backend pipeline working, including [e.g. chunked live transcription with faster-whisper, plus anything else: slide OCR, notes comparison, etc.]
- **Next:** Merge the backend with the UI
- **Blockers:** None raised

Rami

- **Done:** Got the UI working [add specifics: which screens/features]
- **Next:** Merge the UI with the backend
- **Blockers:** None raised

Decisions

- Next sprint goal is integrating the UI and backend into one working app, then adding more features
